Let's Make Really Cool Stuff!
TL Innovation
Meets
Wednesdays at lunch in the
Engineering Tech Computer Lab

TL Innovation Lab meets on Wednesdays at lunch in the Engineering Tech Computer Room. Innovation Lab is a student and volunteer-driven enrichment program that provides opportunities in applied computer science at TL. Students also advocate for computer science and build community around computer science and technology. Members also are expected to take on leadership roles and support our events, like the Annual Hour of Code, National Computer Science Education Week, and our Industry Insights Lunchtime Lecture Series. Also, look for us at the Bay Area Maker Faire 2019! If you would like more information on how to become a project mentor or parent volunteer, please contact Owen Bartolf at owen.bartolf@gmail.com. More information at http://www.tlae.org
